MEMORANDUM FOR:   
Managing Editor of the Monthly Warning Report

FROM: Charles E. Allen  
National Intelligence Officer for Warning

SUBJECT: Menu

The Chairman and Vice Chairman of the NIC have requested that when we prepare a proposed menu it be sent forward for their comment and review. You should state in a sentence or two the warning issue that is to be addressed. Please insure this goes up by close of business on Friday following the menu meeting. Mr. Gries emphasized that this is not to preclude us writing a warning item on any given subject, but in order to save us some grief if either he or Fritz have a particular view on any given subject as to the relevance of the forewarning.
